

Too Big to Leave Out Russia Must Play Key Part in Postwar World Argues Joseph E. Davies

The Soviet Union must play a key part in the post-war world, Former Ambassador to Russia Joseph E. Davies argues in the following article, the third and final in a series prepared exclusively for The Chicago Sun and The Edmonton Bulletin. Mr. Davies returned to Russia this spring to carry a letter from President Roosevelt to Premier Stalin. The second mission came five years after the completion of his first—EDITOR.

By JOSEPH E. DAVIES
Former U.S. Ambassador to Russia

One strong impression that I had five years ago has been confirmed, namely that the Soviet people and their leaders desire, above all else, a peaceful world.

They believe in Great Britain, the United States, and the United Nations. They demand respect and confidence in their good faith.

If they, in turn, have confidence in the good faith, and the will of the four great powers of the earth and the United Nations to create a community of nations in the world where law and order will be maintained, in my opinion, they will go the whole way as high-mindedly, as altruistically, and as unselfishly as any of the nations of the earth.

There are a few in our country who still bicker at Russia; who still carp at Russia; who still sneered at the way in which they live and conduct their own government, which is exclusively their own business.

To do this is to play Hitler's game. Every possible thing that Goebbels' propaganda machine can do to make us fear and hate Russia, and make Russia fear and hate us, Hitler's machine is doing. It is the only thing which might save the skins of the Nazis.

It is neither answer, wise, nor right to encourage criticism of the good faith of the Soviet government or attacks on its leaders. The conditions under which our children's children will live will depend upon what we do now.

And why should there not be

JOSEPH E. DAVIES

complete mutual respect, friendship, and understanding? What we need is a peaceful world, and preventing this is the worst of all things. With Fascism dominating the world, there would be neither physical stock position nor freedom for Russia.

Details Completed

Chiefs of Staff Submit Plan for Next Big Move To Churchill, Roosevelt

By ROBERT W. KEYSERLINGK

QUEBEC, Aug. 18.—The Anglo-American high command submitted to Prime Minister Churchill and President Roosevelt today a detailed plan of the next big military operation, which was believed by many to be the chart of a body blow against Axis held Europe.

You May Help

Chinese Allies Seek Your Help To Battle Foe

In China's sixth year of war, medical aid is one of her greatest needs. Civilians have suffered from bombing attacks even more than soldiers. Refugees from Burma have started epidemics of cholera and bubonic plague. Malaria is widespread and malignant. China's hospitals could carry on could not begin to meet the situation—without help from the sympathetic Western world. The Chinese War Relief Fund hopes, this month to raise \$100,000 in Canada to be used for China's vital wants. The entire sum is to come from voluntary contributions which means that the "little people" of Canada must rally around if their Chinese Allies are to be helped in their time of need. From a military and strategic point of view, China is counted on to stand firm against Japan and serve as a base for Allied attack.

New Ratios Books To Be Distributed Starting August 25

MONTREAL, Aug. 18.—(CP)—Canada's third issue of ratios books will be distributed during the four-day period beginning Aug. 25. It was announced yesterday by officials of the Finance Board. The first issue of the new book will be sent to that fulfilled to obtain the No. 2 book last spring.

Effective on September 2

Tea, Coffee Rations Increased by Third

OTTAWA, Aug. 18.—(CP)—Canada's tea and coffee rations will be increased by one-third effective Sept. 2, the Price Board announced today with the added promise that a further increase will be made before the year-end if shipping conditions continue to enlarge the Dominion's supplies of those commodities.

The announcement said the ration would be further increased at any time when the supply permits and it is felt that the new shipping conditions will continue to enlarge the supply, another increase in this ration will be made before the end of the year.

Present rations are one ounce of tea and four ounces of coffee weekly per person. An increase of one ounce of tea and one ounce of coffee will be made effective Sept. 2.

VALUES UNCHANGED

There will be no change in the present value of these coupons, but each being worth two ounces of tea or eight ounces of coffee, but the increase will be accomplished by having a new coupon issued every three weeks instead of every four weeks, as at present.

Tea and coffee coupons in *Ration Book No. 3* will not show the valid date, but these dates will be announced from time to time by the board. The first coupons of our new stock position are set to be put into circulation on Sept. 2.

Commenting on the announcement, R. T. Mohan, administrator of tea, coffee and spices for the board, said, "This increase in tea and coffee rations has been made possible by an assured improvement of our stock position as regards tea and coffee."

Scene Examined

Believe Victims Of Plane Crash Died Instantly

VANCOUVER, Aug. 18.—(CP)—Three members of the Alpine Club have reached the wrecked Canadian Pacific air liner which disappeared shortly before it was to have landed in Vancouver from Prince Rupert. The 13 persons on board Dec. 20, and reported missing, had met a reportedly sudden end.

The party consisted of Len Von Zuben, Charles McMillan and Charles Woodworth. A second official party is proceeding to the scene.

Charles Woodworth expressed the hope that the bodies of 16 passengers and three members of the crew would never be brought down from the mountainside. 15 miles southeast of Vancouver.

"We found the airliner and its human freight spread in a million places over a vast area of snow and ice," he reported. "A more complete scene of disaster would be difficult to imagine. The wreckage of the plane, torn and twisted, lies scattered over the snow."

Former Bracken Seat

C. C. F. Party Candidate Wins Manitoba By-Election

THE PAS, Man., Aug. 18.—(CP)—Election of the far-flung northern constituency of The Pas yesterday elected 29-year-old Bertram F. Richards, C.C.F., to the seat in the Manitoba legislature, succeeding John Bracken, former Liberal-Progressive premier, who represented the riding for more than 20 years.

The Pas, which gave Mr. Bracken, now national leader of the Progressive Conservative party, an acclamation in 1931 after he formed the provincial coalition administration, swung to the C.C.F. opposition in the by-election of almost every poll.

Mr. Bracken resigned the seat shortly after accepting the Progressive Conservative leadership last December.

1,315 MAJORITY
With 3 of 40 polls reported, Mr. Richards, youngest member of the Manitoba legislature, had 3,272 votes, a majority of 1,315 over three coalition opponents. There are only 413 names on the voters' list in the Manitoba constituency.

The three coalition opponents, of whom lost their deposits, were Frederick A. McIsaac, Liberal-Progressive, who received 1,073 votes; George F. Wright, Liberal, 497, and George B. Mainwaring, Independent, 307.

Mr. Richards' election gave the C.C.F. four members in an opposition of eight. The government has 24 Liberal-Progressives, 13 Conservatives, six Independents and one Independent.

Mr. Richards' election gave the C.C.F. four members in an opposition of eight. The government has 24 Liberal-Progressives, 13 Conservatives, six Independents and one Independent.

Mr. Richards' election gave the C.C.F. four members in an opposition of eight. The government has 24 Liberal-Progressives, 13 Conservatives, six Independents and one Independent.

Wins in The Pas

Bertram F. Richards, 29, who won the provincial by-election in The Pas Tuesday for the C.C.F., Richards, youngest member of the University of Alberta, was elected to the seat in the Manitoba legislature, succeeding John Bracken, former Liberal-Progressive premier and now leader of the National Progressive Conservative Party, who represented the riding for more than 20 years.

At Quebec
Nazi Broadcast
On Peace Given
Propaganda Hue

By ROBERT W. KEYSERLINGK
Quebec, Aug. 18.—German radio broadcast today gave the question today confronting the heads not only of the C.C.F. staffs but also the leaders themselves, who are gathered at the C.C.F. headquarters.

The broadcast gave the official German radio facilities aimed at North America, suggesting peace and even the punishment of some of the Nazi leaders, was received with interest.

It was noted that the broadcast rejected violently references to unconditional surrender and also argued that the democratic form of government does not fit the German people. But a very much heavier suggestion arose as to a form of German propaganda rather than a peace offer.

Official warnings coming at this moment from Washington and London, against over-optimism about the war being brought to a successful conclusion, should be given as a form of German propaganda rather than a peace offer.

Hundreds of Bombers Hammer All Flanks In Great Offensive

LONDON, Aug. 18.—(RUP)—A Royal Air Force spokesman said today that Allied planes based in Britain and Africa carried out 2,500 to 3,000 sorties—a sortie is one flight by one plane—against the Axis in the last 24 hours.

By ROGER GREENE
Associated Press Staff Writer
A thunderous air offensive that hit every flank of Hitler's European fortress—ranging from the eastern Mediterranean through southern France and Greece to the English Channel invasion coast—intensified the German high command's hunt today on the question: "Where will the Allies strike next?"

With the 38-day conquest of Sicily written into the pages of history, many hundreds of Allied bombers turned their fury on Nazi-occupied Greece, Italy, France, the Reich, Belgium and Holland in probably the greatest overall offensive of the war.

The bombers air strategy said R.A.F. Mosquito bombers attacked Berlin during the night while the giant block-buster raiders of the R.A.F. and U.S. Army Air Corps sought the German rear base at Hammelburg, 40 miles northwest of Stuttgart. Forty-one bombers and nine fighters were the main force of the attack, including 13 R.C.A.F. bombers.

In daylight yesterday, American bombers making their first shuttle raid from Britain to North Africa landed at the port of Tunis, corner of Germany, near Munich and dropped their bombs on the city. The raid was the first since the factory at Hammelburg. The big plane line on to North Africa.

At the same time, other American bombers making their first shuttle raid from Britain to North Africa landed at the port of Tunis, corner of Germany, near Munich and dropped their bombs on the city. The raid was the first since the factory at Hammelburg. The big plane line on to North Africa.

Oil, Timber Production Discussed in Address By Premier Ernest Manning

"Our Minerals and Forests" was the title of an address by Premier Ernest Manning early this week. The talk, seventh in a series on provincial affairs, was the second dealing with Alberta's natural resources.

Oil, coal and timber production

He discussed by Premier Manning, who described the oil and timber resources in the Turner Valley field. A four-fold policy of the government in respect of natural resources, was summarized as follows:

1. To encourage orderly development of natural resources.

2. To maintain an effective conservation program to prevent the waste and unnecessary depletion of these resources.

3. To obtain all types of oil and coal from the Turner Valley field.

4. To encourage the people to conserve the oil and coal.

5. To encourage the people to conserve the oil and coal.

6. To encourage the people to conserve the oil and coal.

7. To encourage the people to conserve the oil and coal.

8. To encourage the people to conserve the oil and coal.

9. To encourage the people to conserve the oil and coal.

10. To encourage the people to conserve the oil and coal.

LIFE'S LIKE THAT

It was when an oil structure is located in the Turner Valley field that the exploration was permitted to take a lease on half of the proven area at the rate of \$100 per acre annually, plus a royalty on all production of the royalty as already explained. In a graduated scale, and was varied from time to time by regulation.

You will notice, I said the company doing the exploration work is permitted to take a lease on half of the proven area at the rate of \$100 per acre annually, plus a royalty on all production of the royalty as already explained. In a graduated scale, and was varied from time to time by regulation.

"This budget just riles me... having to set down every little item... whose business is it anyway, how much I spend each week."

but because of stupid man-made barriers. Of these, the two most important are the discriminatory freight rate structure, which makes the cost of marketing Alberta coal prohibitive, and the lack of capital for industrial development.

Since this government has been in office we have continued to fight for a complete and equitable revision of our freight rate structure. Until we can overcome the handicaps of the freight rate structure, we have been imposed on Alberta this wonderful accumulation of natural resources, being brought home to us today in the acute coal shortage in which Canada finds itself.

I have not time to deal with other natural resources such as the famous McMurtry sand, sand, gypsum and various clay deposits, which are being sold at a few cents on our timber lands.

FIRST FEATURE
The first feature which I want to emphasize in regard to the administration and conservation of our forests is the protection of the watershed which is of such vital importance to the welfare of the whole province. You have but to consider that all our rivers are fed from the snow-covered mountain slopes of the Rockies in order to realize that not only the irrigated areas, but the entire province, and for that matter Saskatchewan and much of Manitoba as well, are dependent upon the preservation of this watershed.

Enforced Order
Under the circumstances had the board endorsed its order and insisted on production from the Royalties Wells being reduced it would have resulted in the restriction of a product necessary for war purposes, and the board would have been in violation of the requirements of the War Measures Act.

Accordingly the government has stepped in to rectify this state of affairs by authorizing the Royalties Company to overproduce its wells for the present, but all such overproduction is to be held in storage as belonging to all the producers in the field. It is the intention of the government to recommend legislation at our coming session which will require the Royalties Oil Company to gather and use or restore to the structure, as far as possible, all the gas produced in the Turner Valley field, and further to make it available for all the producers in the field to share pro rata in the available gas market.

IMPORTANT MATTER
This recent development is of vital importance to all the people of the province because it is a matter which has to do with the question of who is to control the resources of this province. It is a matter which has to do with the question of who is to control the resources of this province. It is a matter which has to do with the question of who is to control the resources of this province.

So much for the first part of my address. Now let me deal briefly with the second part of my address. I do not propose to do so from the standpoint of a lawyer, but from the standpoint of a citizen. I am a citizen, and I am a citizen of this province. I am a citizen of this province, and I am a citizen of this province. I am a citizen of this province, and I am a citizen of this province.

COAL RESERVES
It is claimed that Alberta has 81 per cent of the known coal reserves of Canada. The estimate of our coal resources reaches the staggering total of 327 billion tons. There is no problem of finding coal in the future in enormous quantities. Yet this vast store of wealth and energy is only partially developed, because of very natural causes.

Grain Harvest Now Underway In West Areas

Grain harvest is now well under way in the West. The weather is generally favorable, and the grain is in good condition. The harvest is expected to be a good one.

The Bulletin's SPORTS SECTION by Hal Dean

ARROWS won last night's baseball semi-final at Renfrew Park simply because they played better ball than did the Hornets and now with two games already in the bag and an ace pitcher in the hole will be kept to keep out of the final against the Yankees.

So far in the series, Hornets have collected a total of five earned runs—they have made six errors all told—and yet they have dropped both heats. And errors tell only part of the story. In spite of the fact that three costly lapses figured in the defeat of the Yankees runs in the opening series Tuesday.

In the two games, Arrows were not only under the line with their batsmen when the cherries began to fall, but assisted in the good work by doing a little opportunistic shaking on their own account. It will be recalled that Hal Stafford hit for the three misuses and the wild pitch and Sammie Kahn's stolen base played him in position to score on the error following Fred Lupul's ground ball to first.

GOLES DESERVES VIT

The greatest mystery to the fans is, though, was just why Ken McAnley was ordered to the line with one down in the fifth, on top of a single, two doubles and Dan Hackers' triple—leaving him, in mind, of course, that Ken was one of the three top hitters during the regular league season with an average of .351 and that Jim Kelly, the great champion was in the line.

All Gies deserves a win even though the Hornets did win the game rather easily in the fifth. The Arrow checker had allowed only one single up to the fifth and his control had been excellent.

Applying Still Leading

Stephens' Continued Slump

Features American Batting

CHICAGO, Aug. 18.—(AP)—Resumption of Vern Stephens' skid in the American League batting race provided the principal change in the weekly averages Tuesday, as the Apppling-Wakefield-Curtwright monopoly continued in that order in the top three positions for the third straight week.

Stephens, St. Louis Browns' leader, slumped from .306 to .291 in the seven-day period following the first game, and fell to No. 4 position to seventh place.

Late Apppling of Chicago, White Sox remaining in the lead at .326, Dick Wakefield of Detroit was second at .325, and Guy Curtwright of the White Sox was third at .309. Spud Chandler of the Yankees stepped into the hole vacated by Stephens with a .296 mark, followed by Pete Fox of Boston and Oris Hockett of Cleveland, tied at .291.

Bill Johnson, New York Yankees' outfielder, batted his total hits to 144. Rudy Duro of Detroit has hit 140 in 22 games. One of the top 100 players remained the runner-batted-in king with 80. Nick Chaudron of the Yankees succeeded Old Grove of the White Sox as the leading pitcher, with 15 wins and three losses. The strike out of Hal Newhouse of the Tigers continued to gather the most hits with the toll now standing at 111.

Johnny Greco "A.W.C."

An army public relations officer, who was in the line of duty, admitted that Pte. Johnny Greco, prominent light and foot contender, had been "A.W.C." for 22 days but he could give few other details.

The P.R.O. would only add that little fighter is to be docked 45 days pay and will be confined to barracks for at least 30 days.

FIRST TIME LOCKED VIT

First vault door to have a time lock was that of the First National Bank at Morrison, Ill. It was installed by James Sargent in 1873.

GIRLS

USA

Today's Guest Star

John J. Brennan, Akron (Ohio) Brown Jockey. The National League has made 14 player deals within the circuit this season and the Phillies have been involved in nine of them. The nine have resulted in seven players coming to the Phillies. The seven are collectively hitting at a .218 pace.

"I can't see what he POSSIBLY sees in her. I'm much better looking, don't you think?"

Hornets Handed Another 4-3 Setback in Senior Baseball Playoff

Arcaro Will Obey Rules, but "Can't Ride Carefully and Win" By Stafford

By Ned Brown

NEW YORK, Aug. 18.—Eddie Arcaro, who has been the best jockey since he just finished a morning's work exercising Greentree horses at Belmont Park. He was dressed in riding breeches and boots, polo shirt and cap.

Eddie Arcaro, generally considered the No. 1 jockey, makes no secret of the fact that the lifting of a year's suspension for rough riding is a great relief.

"Will I ride more carefully?" Arcaro grinned whimsically as he answered the question. "Later you can ride carefully and win. By that I mean if you're going to win, you've got to be going to win up last."

"You don't have to look out for your own horse, but you have got to look out for the horse you're riding. That means horses and jockeys. You can't let them bull you."

Maybe this suspension was a little harsh, but it is not necessary to say so. Arcaro is a member of the Y. M. C. A. and his control had been excellent.

Fifth Inning Rally Halts

By Stafford

ARROWS made it two straight in the Senior Baseball League series when they defeated the Hornets 4-3 at Renfrew Park Tuesday night and they are now only single step away from a berth in the final against the Yankees. They won the opener last Sunday by the same score. Umpire John Ducey called the game on account of darkness at the conclusion of the top half of the seventh.

Although their first three runs were unearned, the Arrows played smart baseball and until the fifth, Hal Stafford took over a safe hit, in that frame the Aircraft Repair club unleashed an attack which netted three runs on a single, a pair of doubles and a triple. Hal Stafford then took over with a runner on third and only one out, and he scored without any further damage.

Lefty Belter turned in a good performance, throwing 100 pitches and allowing just five hits. A wild pitch and the two walks he gave out were the only errors.

Dubietis had nothing to show for two walks and a hit in the half of the opening inning. Mel Ott walked in the second, but he was thrown out by catcher Fred Lupul, whose throw Plummer draped over the horn.

McAnley walked in the third, but he was thrown out by catcher Fred Lupul, whose throw Plummer draped over the horn.

Senior Men's Fastball

Aircraft Repair Club Stops U.S. Engineers 5-1

U.S. Engineers were virtually eliminated from the fourth playoff spot in the Senior Men's Fastball League when they dropped a 5-1 decision to Aircraft Repair at Kingsway Park on Tuesday night. The game was halted in the seventh inning on account of rain.

In the first frame after two were down, Alf Corvieu singled Morgan, Sebastian did the same and both runners scored when Cobb let the ball get away from him.

George Culpeper scored the only run for the Engineers who were able to collect off Alf Young after he singled to Bill Louis and came home when George Sebastian threw a triple. He also scored when Culpeper stole second base.

Aircraft Repair added another run in the third when Sunny Woid doubled and scored off Corvieu. Woid doubled and scored off Corvieu. Woid doubled and scored off Corvieu.

Robert singled to centre to start the fourth inning. He was thrown out by catcher Fred Lupul, whose throw Plummer draped over the horn.

CANADIAN SPORTSHOTS

TORONTO, Aug. 18.—(CP)—Following a period between the ages of 20 and 30, and reduction of the minimum call-up age limit to 18, kicked professional hockey square in the past season. Cyclone Taylor, Dick Irvin and a few of the other great players have to get their skates out of the mothballs yet. The new callups will be the National and American Leagues with very little to hold up their uniforms.

Lytle of the Toronto Star quotes Coach Mac Day as saying the Maple Leafs will lose all but four of last year's players. Bob Davidson, Bucks McDonald,weeney, Schreiner and Horner Carr, Schreiner has already said Toronto Maple Leafs will lose all but four of last year's players.

Canuck Driver Cons Three Races In Grand Circuit

YONKERS, N.Y., Aug. 18.—(AP)—An driver, turned in three victories in the Empire State Grand Circuit, won the second day of the present Grand Circuit meeting, owned by Art Shrier of Lafayette, Ind., in 204's in the 1000-mile, feature race of the twilight card. He garnered a pair of 210 trotting victories with a 1000-mile, aged gelding owned by Fay Phillips of Red Key, Ind.

Hickson also had two seconds and a fourth in addition to three victories.

Longshot betters got an early thrill when the daily double paid 11-10. The horses that did it were Warren Haver, a 11-10 shot driver, by Geyer Frank Church of Cambridge, N.Y., and Hal Axworthy, owned by John A. Carman of Prattville, N.Y., and piloted by Clarence Craig, at 30 to 1.

Longshot betters got an early thrill when the daily double paid 11-10. The horses that did it were Warren Haver, a 11-10 shot driver, by Geyer Frank Church of Cambridge, N.Y., and Hal Axworthy, owned by John A. Carman of Prattville, N.Y., and piloted by Clarence Craig, at 30 to 1.

Musical of Cards

A Shoo 'in For National Title

NEW YORK, Aug. 18.—(AP)—Rian Musial of St. Louis Cards is to go out in front of other National League hitters that he probably can coast to the batting championship.

In the last week up to Monday he inflated his batting average percentage Musial played in total hits with 154, in doubles with 31 and in home runs with 14. He is second in runs scored.

Back of Musial and Herman in the percentages are Walter Cooper, St. Louis, 316; Johnny Wills, New York, 316; Bob Elliott, Pittsburgh, 300; Bill Nicholson, Chicago, 286; Joe Medwick, New York, 306; Arky Davis, Cincinnati, 286; and Johnny McCarthy, Boston, 286.

Nicholson, who is to lead in home runs with 17, Vaughan retained the leadership in both runs scored with 84 and in stolen bases with 14.

Trueli (Rip) Sewell of Pittsburgh, leading pitcher, edged closer to the 20-victory mark with a record of 19-10.

Following is the box score:

down six runs and two batters on base for the St. Louis at bat in the first half of the seventh inning.

The U.S. Engineers missed a good chance to score in the sixth when Benjamin singled to Louis, stole second, but was out at third. Sebastian to Bartosh. Cobb struck out. Culepper doubled to centre, but Russo grounded out.

Following is the box score:

McCarthy, Boston 304

Nicholson continued to lead in home runs with 17. Vaughan retained the leadership in both run scoring with 84 and in stolen bases with 14.

Truett (Rip) Sewell of Pittsburgh, leading pitcher, edged closer to the 20-victory mark with a record of 18-4.

Moscow Dateline

By Henry C. Cassidy

Chapter XV.

October 2, 1941, seemed at the time to be just another day in the life of Moscow; a day of war, to be sure, but hardly a day of destiny. We in Moscow did not know then that on that day started a tremendous portentous struggle which was to decide the fate certainly of Moscow, probably of the Soviet Union, and perhaps of the world.

For the Muscovites, the day's big news was of battles at the two distant ends of the front, on the Baltic and Black Seas. Leningrad was buckling down for the terrible siege it was still to be enduring two winters later. Already, that fall, the Germans were camped on the approaches to the city and shelling some quarters. Odessa also was under siege, soon to fall, but only after exacting terrible toll of its Rumanian assailants. In the Ukraine, where Kiev had fallen, the enemy had pushed on past Poltava, across the Dnieper and close to Moscow. Grave the news was, but not immediately concerned with the life of a Muscovite.

It was only five days later, on October 7, that we realized the battle of Moscow had begun. That, incidentally, was often the time lag between the actual occurrence of events on the front and their publication in the German, Hitler took several occasions to refer scornfully to the "insupportable inflation service of the Russians."

Actually, those who counted were very well informed. Persons who talked with Stalin on subjects ranging from British aerial operations to Pacific Coast operations would find they were amazed by his complete up-to-date knowledge of their subjects. But, just as the United States knew very well its losses at Pearl Harbor and announced them with a year later, so the Soviet Union knew very well what was going on at the front and gave out its version usually only three to five days later. It was a policy that bore heavily upon its keeping information from the enemy, and it did the people at home no harm.

After five days of the German offensive against Moscow, we learned from the Krasnaya Zvezda, the Red Army newspaper, that hard fighting was under way in the central front, that the Germans had lost more than one thousand dead, one hundred and fifty tanks destroyed, and thirty-one planes brought down in three sectors, and that the Russian were counterattacking against wedges driven into their lines. Probably it was at his afternoon press conference that the offensive was on "probably" the Germans have several hundred thousand men they were in line," he said. "They're waiting their turn."

FATE IN BALANCE
They did achieve that, and they did aim, but for the next two months the fate of Moscow hung in delicate balance.

That same night the danger became apparent. The German communiqué reporting battles in the Vienna and Brank sectors, one hundred and thirty and two hundred and twenty miles southwest of Moscow. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top.

NOT PANICKY
Tense, Moscow was, but not panicky. On the same day that the fall of Orel was announced, the Dynamo soccer team beat Spartak 5 to 1 in a national league game. The last of twenty-three buildings to be moved on Gorky Street, was pulled back fifty yards, completing the widening of that thoroughfare from the centre of Moscow to the White Russia railroad station. As I walked up my darkest staircase that night after work, I passed a neighbor, whistling nonchalantly as he descended to take his dog for a walk. Moscow's nerves were steady.

By October 30, the Red Army was announced to have evacuated Orel two hundred and forty miles south of Moscow. Moscow grew tense.

The next day, October 31, the German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top.

The next day, October 31, the German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top.

The worst news they could produce the night of October 11 was the fall of Brank. That was hardly the destruction of Moscow. Brank had been a battle ground for a week. It was more than two hundred miles from Moscow. That left plenty of breathing space.

Monday, the thirteenth came up a little more, clear day, blue

PRIVATE BREGER ABROAD

District News in Brief

WILLINGTON—Eric Cranston left for a vacation. Mrs. S. Tashuk and her baby son are visiting Mrs. Tashuk's parents, Mr. and Mrs. N. K. Shand. Mr. and Mrs. George Pulson and family of Velloville are visiting Mrs. Pulson's parents, Mr. and Mrs. Jacob Kwanich. Mr. and Mrs. L. Knoch and Mr. and Mrs. E. Ropchan have left for the Radium Hot Springs. Anne MacLaren is away on vacation.

Stevan of Uxley, Sask. was in Killam recently visiting her mother, Mrs. W. Reed. Mrs. Charles Smith has returned to Edmonton after visiting Mrs. H. Smith. Miss Muriel Bingham of Seneca, Sask. is visiting relatives here. Miss Margaret Patton returned from the coast on Tuesday. Miss Ethel Fala of Seattle, B.C. was in Killam for the afternoon of the battle of Moscow, for the next morning, Wednesday, October 13, as I was writing my dispatch at the foreign commissariat, the embassy telephoned to summon all American correspondents. I finished my story of German attacks on Kholm, one hundred miles northwest of Moscow, of battles in the Vienna-Brank sector, of the advance of German troops in the north, and walked through the slush to Spaso House, Ambassador Stenhardt was waiting for me anxiously under the crystal chandelier of his private room. He and Sir Stafford Cripps had been to see Molotov at 12:45 p.m. They were notified that the foreign column must leave Moscow that evening. We were to be back at Spaso House at 6:30 p.m. with only 48 small baggage as we could carry.

We had our tickets for Kholm, and we were not to be out of the city again for two months when the German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top. The German line had broken through there. They were racing to beat the winter in Moscow. Already Moscow was being whirling like a top.

Home Wedding Held Tuesday

Summer blossoms basked the fireplace in the town of Miss A. E. Miller, for the marriage Tuesday night at 7 o'clock of her cousin, Miss Zella Margaret Tupper, R.C.A.F. (W.D.), daughter of Mr. and Mrs. Francis Herbert Tupper of Montclair, Sask., and Dr. Ernest James Allen, R.C.A.F. of Debert, Nova Scotia, son of Mr. and Mrs. Ernest Allen of South Edmonton.

The Rev. Daniel Young officiated. The bride wore a floor-length gown of white chiffon, with full bishop sleeves and a broad embroidered bodice. Her finger-ring length veil was caught to her hair with three row-buds, and she carried a cascade bouquet of dark red roses.

Miss Allen Lillian Tupper, of Coombs, Vancouver Island, was the bride's maid, wearing a floor-length gown of white chiffon, and a long veil of white tulle. She carried a bouquet of white roses. The bridesmaids wore a floor-length gown of white chiffon, and a long veil of white tulle. The bridesmaids wore a floor-length gown of white chiffon, and a long veil of white tulle.

ROOMS DECORATED

The rooms were decorated with snapdragons, roses and other summer flowers and the wedding table set with a lace cloth and a white and blue damask. The bride and groom were seated at a table with a white and blue damask. The bride and groom were seated at a table with a white and blue damask.

For the occasion Mrs. Tupper, the bride's mother, wore a floor-length gown of white chiffon, and a long veil of white tulle. She carried a bouquet of white roses. The bridesmaids wore a floor-length gown of white chiffon, and a long veil of white tulle.

The bride and groom were seated at a table with a white and blue damask. The bride and groom were seated at a table with a white and blue damask. The bride and groom were seated at a table with a white and blue damask.

Out of town guests included Cpl. Thelma Kennedy of Clarendon, Vancouver Island and Mr. and Mrs. F. H. Tupper of Montclair, Sask. The bride and groom were seated at a table with a white and blue damask.

Angel Falls, in Venezuela drops in the world, the greatest drop in the world. The bride and groom were seated at a table with a white and blue damask.

Now... You May Phone or Mail Help Wanted Ads direct To The Bulletin

It's Big News!...

EATON'S August Coat Event!

All Signs Say—It's Time to Buy Your Fur Coat—Now!

WY! Because the selection is at its very best now! The new styles are in—the cream of the pelts are here—and prices are excitingly moderate! Because, too, you can buy on Budget Plan Terms (subject to government regulations), and have your coat paid for by the time you need it!

4 WAYS TO BUY

- Cash
- Budget Plan Terms
- EATON'S Lay-Away Plan
- Charge Account

Here are Furs Fashion Favors!

Furs You'll Favor, too, When the North Wind Blows!
Warm, Lustrous, Beautiful!

If you're a lover of furs (and isn't any woman?) you'll thrill to the shining beauty of our muskrat coats, to the rich lveliness opossum, to the opulent, velvety feel of jet black pieced electric seal (died rabbit). See them all—there's a grand variety of prices!

BACK MUSKRAT COATS— Swagger styles, sizes 12 to 44	EACH	\$298.00
FLANK MUSKRAT COATS— Swagger styles, sizes 12 to 44	EACH	\$225.00
BLACK AND NATURAL OPOSSUM COATS— Warm, youthful swaggers, sizes 12 to 20	EACH	\$79.00 to \$149.00
PIECED ELECTRIC SEAL COATS—Fitted and swagger models, sizes 12 to 30	EACH	\$39.50

YOUR COAT WILL BE STORED WITHOUT CHARGE UNTIL WINTER
